## Asphalt Company of America

# National Asphalt Company

To the Holders of Collateral Gold Certificates of the Asphalt Company of America Whose Certificates Are Not Deposited Under the Deposit Agreement and Plan of Reor-

You are hereby notified that the undersigned, a Committee acting at the request of holders of Collateral Gold Certificates of the ASPHALT COMPANY OF AMERICA, under an agreement bearing date the 14th day of November, 1901, have approved and adopted, in conjunction with a Committee representing the holders of securities of the NATIONAL ASPHALT COMPANY, a plan for the reorganization of the affairs of the Asphalt Company, and have lodged originals of said plan with the COMMERCIAL TRUST COMPANY OF PHILADELPHIA and the MERCANTILE TRUST COMPANY OF NEW YORK, the depositaries mentioned in said agreement. Copies thereof may be obtained upon application to either of said depositaries.

Holders of collateral gold certificates of the Asphalt Company of America may become parties to said agreement and plan by depositing their said certificates with either of said depositaries on or before SEPTEMBER 1STH, 1802.

Dated Philadelphia, August 4, 1802.

FINANCIAL.

# WHAT WE CAN EARN

George A. Treadwell Mining Company, 27 William Street, New York. CAPITAL STOCK, - - - \$3,000,000

Par Value of Shares, \$10.

Professor Treadwell in a recent circular letter to the stockholders says:

\*Our exploration and development work has now gone far enough to assure us of ore from our IRON QUEEN and adjacent mines on the western side of the mountain to supply a smelter of 250 tons daily capacity, and the CLIFF and BROOKSHIRE will easily furnish 500 tons a day to the smelter that we shall erect on this side the mountain. This will give us a total capacity of 750 tons a day.

"I count the ores as averaging 8% copper. The United Verde ores run 10% and our ores seem to be in every way just as good, but I say 8% so as to be within the mark. We are already taking out a good deal of ore running 20%. "I calculate the smelter to run 300 days in the year. We expect to do much

better than this, but I still keep within the mark. 750 tons a day for 300 days in the year will enable us to smelt 225,000 tons in the year. Counting 8% copper, this would give us 18,000 tons a year. Counting copper at 10 cents a pound, or \$200 a ton, this would give us a product of the value of \$3,600,000 a year. Counting the cost at 31/4 cents a pound—the proven cost of producing copper at the United Verde—or \$70 a ton, this gives us as the total cost of producing the 18,000 tons, \$1,260,000. This would give us a total profit of \$2,340,000 a year on a capitalization of \$3,000,000, or the equivalent of a dividend of 78%.

within three years we shall have a furnace capacity of 1,500 tons instead of 750 tons, and abundance of ore to supply it, and that the ore will average nearer 10% than 8% copper, and I expect copper to be worth more than ten cents a pound. I have taken no account of the gold and silver in the ores, which I believe will add at least 50% to the value of the product. In fact, I know no reason why we should notnot only do as well, but-do better than the United Verde. We have many times the United Verde's holdings and our ore bodies seem at least as rich and extensive

"It is the facts that I have stated above that make the stock of the GEORGE A. TREADWELL MINING COMPANY, a year before it expects to pay dividends, sell considerably above par and at constantly increasing prices, and that make it probable that within a year it will sell for at least \$25 a share, within two years for \$50 a share, and at least \$100 a share as soon as the property is fully developed

A limited amount of the Treasury stock is for sale for a limited time at \$13.50 a share.

M. B. MARTIN, Secretary.
